

DOCKET NO.: IVOO-0140
Application No.: 09/675,025
Office Action Dated: November 28, 2006

PATENT

REMARKS

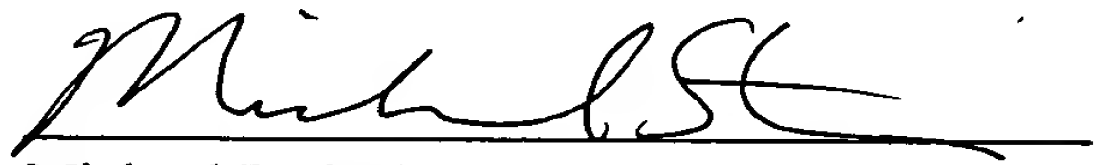

In response to the Examiner's Request for Information under 37 CFR § 1.105, applicants submit herewith marked up copies of each specification in the chain of continuation-in-part applications that applicants claim priority to. There are seven specifications being submitted, including the parent specification (Patent Application No. 09/385,671), and each subsequent continuation-in-part application is identified by a cover sheet indicating its application number and the application number of the continuation-in-part application to which it is being compared.

Applicants state that a software program entitled DeltaView 2.8 was used to make the comparison between the applications. While applicants cannot guarantee the accuracy of said comparison, they are reasonably certain that the marked up versions of each continuation-in-part application is a fair representation of the changes made to each.

Should the Examiner have any further questions regarding this submission, he is respectfully invited to telephone applicants' undersigned attorney at **206.332.1384** to further discuss this matter.

Respectfully submitted,

Date: January 29, 2007
